

Baltimore House Studio

bio

The **Baltimore House Studio** was created by [Mark Creaney](#) and [Drew Schlegel](#) as an outlet for music making and a project aimed at benefiting artists in Austin and beyond.

We have the same goal as the good people at Uvumi.com, which is to promote music and art and add value to the entire artistic community, which is why Uvumi has partnered with us as an official sponsor of our studio, and has donated much time and energy to helping us make it a truly valuable project for Austin, Uvumi, and the entire music community.

As partners, we work with Uvumi.com to record live sessions in our studio with artists who use the Uvumi platform. It's a not-for-profit effort, we donate our time and so does Uvumi, and it comes with a photo shoot, an interview, and a front page feature on Uvumi.com.

Check out our [songs section](#) for Baltimore House Studio Live Sessions including interviews with artists and many live tracks from talented musicians, exclusively on Uvumi.com!
