

The 1-10's EPK

bio

Happens all the time, right? Musicians migrate to the city, meet other musicians, and start a band. The 1 through 10's are no different. Except these guys are good, and with the release of their debut EP they are showing just what they are capable of.

The 1-10s influences run the gamut of rock and roll, funk, and blues both old and new, but draw comparisons to bands like The Pixies, Jane's Addiction, and Primus. Since their inevitable pairing, the 1-10's have been working feverishly to get the show on the road. New songs and fresh ideas have been pouring out of the band on a weekly basis, and with the members past projects including such artist's as; Crop Circle, One Pump Daisy, West Mary, Angel Snow, Redding Shift, Vivid Eminence, and Grammy-winner Jim Peterik, you know this band is not just a bunch of upstarts. They're upstarts that know how to make great music.

The One Through Tens debut EP is available on CDBaby, Itunes, and many other reputable online music sellers.

These guys are awesome! It's like perfect mix of Jane's Addiction and Primus. Really Fun.
